

VENKATA NAGA KARTHIK REDDY B

Software Engineer — Full Stack Developer

karthikreddybodapati@gmail.com | +91-7207120349 | LinkedIn | GitHub

Technical Skills

Languages: Python, JavaScript, HTML5, CSS3
Databases: MySQL, PostgreSQL, MongoDB, SQLite
Core: Data Structures, OOP, DBMS

Frameworks: Django, React.js, Flask, DRF
Tools: Git, VS Code, REST APIs
Concepts: API Design, Authentication, MVC/MVT

Experience

Full Stack Developer Intern

SSSIT Institution

2026

- Developed a Placement Management Portal using Django and React.js, improving student-job matching efficiency by **40%**.
- Implemented role-based authentication and secure APIs, reducing unauthorized access issues by **30%**.
- Designed responsive UI components, improving usability across devices.
- Collaborated in an agile team to deliver scalable features within deadlines.

Projects

Online Examination Platform

GitHub

Python, Django, SQLite, HTML, CSS, JavaScript

- Built a full-stack exam platform supporting **100+ concurrent users**.
- Automated evaluation system reducing manual grading effort by **80%**.
- Developed admin dashboard for analytics and exam management.
- Ensured data security using authentication and authorization.

Placement Management System

GitHub

React.js, Django REST Framework

- Engineered scalable system for student-job matching with real-time updates.
- Built REST APIs reducing data fetch time by **35%**.
- Implemented role-based dashboards improving user experience.
- Designed modular architecture for maintainability and scalability.

Education

B.Tech, Electronics and Communication Engineering

2021 – 2025

Vignan's Foundation for Science, Technology and Research

CGPA: 8.2/10

Board Of Intermediate

2019 – 2021

Narayana Junior College

Score: 77.2%

Certifications

- Data Analytics Using Python
- NPTEL: Industry 4.0, Industrial IoT
- HackerRank: Python, C Programming

Additional Information

- Cambridge PET (A2 Level English)
